

# TITLE INDEX TO SIGNAL

Volume 45 September 1990 through August 1991

## A

1. Advanced Laser Research Boosts Italy's Industry ..... Sept. 77
2. Aerial Combat Stimulates Saudi Air Force Blueprint ..... Aug. 116
3. Aerial Radar Advances Offer Detection of Smaller Targets ..... Sept. 37
4. AFCEA Faces the Future ..... Jan. 17
5. Air Force Communications Begin Small in Gulf War ..... Aug. 65
6. Alliance Cooperative Efforts Assume Post-CFE Significance ..... Oct. 41
7. Allies Build Data Fusion Tactical Prototype System ..... Sept. 71
8. Allies Grapple With Structure as Central Threat Diminishes ..... Oct. 30
9. Amid Drama, Crises, FEMA Communications Quell Pain ..... July 63
10. Army Hellfire Obliterates Iraqi Air Defense Radars ..... May 65
11. Army Research Efforts Aid Technology Transfer ..... March 84
12. Army's Digital Devices Move Presses Tactical Automation ..... Nov. 25
13. Army's Radar Research Capability Expands in 90s ..... March 61
14. Atlantic Alliance Analyzes Evolutionary Acquisition ..... Oct. 66
15. Audio Recognition System Increases Security, Access ..... Feb. 51
16. Automated Business Systems Offer Italy Military Uses ..... Sept. 81

## B

17. Battlefield Realism Flows Via Distributed Simulation ..... Nov. 47
18. Black Art Electronic Systems Prove Merit in Gulf Air War ..... April 26
19. Bounce-Shot Radar Beam Foils Low-Level Aircraft ..... Sept. 51
20. Breakneck Electronics Spurt Over Oxide Film Substance ..... May 55
21. Briefcase Computer Orders Light Unit Artillery Fire ..... Aug. 41
22. Brilliant Eyes Technology Provides Dual-Mode Viewing ..... Dec. 29
23. Britain, Soviet Union to Study Joint Satellite Launch System ..... Nov. 76

## C

24. C<sup>3</sup> Center Seeks Fusion of Man, Machine Capabilities ..... March 49

25. C<sup>4</sup>I: Desert Storm's Unsung Technology Superstar ..... May 15
26. CECOM's Support Stimulates Worldwide Combat Readiness ..... March 18
27. Centralization is Watchword in Administrative Programs ..... Feb. 66
28. Challenges for Users and Managers of IRM Capabilities ..... June 15
29. Changing Trends Bring NATO to the Crossroads ..... Oct. 36
30. Chip Analysis Leads to New Designs, Housing ..... March 76
31. Chip Technologies Create Real-Time Response Stage ..... Aug. 104
32. Choices in Helping the Soviet Union ..... Dec. 17
33. Clever Diamond Methods Extend Electronic Gains ..... May 48
34. Climbers Use INMARSAT At World's Highest Peak ..... April 58
35. Cold Peace ..... Sept. 17
36. Combat Operations Garner Unmanned Aerial Support ..... April 15
37. Combat Resurrects Allied Identification Pressures ..... May 140
38. Combined Force Leadership Wins Powell Sarnoff Award ..... May 133
39. Command, Control Advances Permeate Combat Successes ..... May 121
40. Commanders Glance, Monitor Far Flung Combat Maneuvers ..... Aug. 52
41. Communications Cross Over in Civil, Military Arenas ..... July 69
42. Communications in Future Will Be Automated, Secure ..... March 45
43. Communications, Electronics Scientific Advances Explode ..... Sept. 26
44. Computer System Keeps Tabs on Passengers and Supplies ..... Aug. 66
45. Computer Warfare Weapons are Target of Researchers ..... Feb. 43
46. Computer-Aided Writing Improves Documentation ..... Feb. 69
47. Corporate Merger Expands Europe's Simulation Drive ..... July 31
48. Crafting Standards Eases Communications Conundrum ..... Nov. 59
49. Critical Software Safety Hangs on Static Analysis ..... Feb. 78

## D

50. DCA Enumerates Array of Corporate Systems July 85
51. DCA Garners Large Slice of Management Systems Pie ..... Feb. 62

# TITLE INDEX TO SIGNAL

Volume 45 September 1990 through August 1991

## A

1. Advanced Laser Research Boosts Italy's Industry ..... Sept. 77

46. Computer-Aided Writing Improves Documentation ..... Feb. 69
47. Corporate Merger Expands Europe's Simulation Drive ..... July 31
48. Crafting Standards Eases Communications Conundrum ..... Nov. 59
49. Critical Software Safety Hangs on Static Analysis ..... Feb. 78

## D

50. DCA Enumerates Array of Corporate Systems July 85
51. DCA Garners Large Slice of Management Systems Pie ..... Feb. 62

52. DEA's Technical Arm Pursues Drug Kingpins ..... April 45  
 53. Declines in Training, Competitiveness Cause Serious U.S. Concern ..... May 17  
 54. Defense Laser Technology Aids Civilian Production ..... March 101  
 55. Defense Machinery Gears Up to Fight Environmental Threat ..... Dec. 35  
 56. Desert Storm and the High Technology Debate ..... March 13  
 57. Desert Storm Stirs Up Debate on Weapon Need ..... Aug. 15  
 58. Despite Resistance, Ada Gains Added Respectability ..... July 92  
 59. Digital Processors Handle Complex Flight Simulation ..... July 29  
 60. Donnybrook Rages As DOD Resists Overtime Reform ..... Feb. 59  
 61. Dramatic Events Spur Change in the Multinational Alliance ..... Oct. 23  
 62. Drug Curse Conquest Hinges on Secure Communications ..... July 58

## E

63. Economics and Technologies Alter Superpower Mindsets ..... Dec. 59  
 64. Electro-Optics Applications Key in Postal Modernization ..... July 46  
 65. Electro-Optics Provide Vital Military Capacity ..... March 92  
 66. Electronic Battlefield's Exposure Bolsters Army ..... Aug. 18  
 67. Electronic Combat Access Poses U.S. Weapons Threat ..... Dec. 70  
 68. Electronic Warfare Mission Grows as Budget Declines ..... April 21  
 69. Electronic Warfare Systems Find Growing Applications ..... Sept. 73  
 70. Electronics and Computers Lead Advances in Aerospace ..... Nov. 66  
 71. Electronics Funds Boosted Despite Leaner Defense ..... April 37  
 72. Electronics Laboratory Lures Industry, Academia ..... March 66  
 73. Electronics Research Spurs Information Exchange Horse ..... Aug. 89  
 74. Essential C<sup>3</sup>I Offers Payoff For Big Ticket Investments ..... Sept. 20  
 75. Established Architecture Keys Marine Desert Data ..... Aug. 77  
 76. Europe Pursues Aggressive Space Exploitation Effort ..... June 66  
 77. Europe Pursues Different Computer Security Approach ..... Jan. 45  
 78. European Air Usage Spurs Civilian, Military Rivalry ..... July 87  
 79. European Security Depends on USSR, Eastern Neighbors ..... Dec. 49

## F

80. FAA Technical Center Breaks in New System ..... July 50  
 81. Federal, Military Research Pays Commercial Dividends ..... March 87

82. Field Expedient Measures Can Neutralize Jamming ..... April 33  
 83. Foreign Competition Pounds U.S. Semiconductor Industry ..... April 39  
 84. France Displays Electronics Along With Tanks, Missiles ..... Sept. 86  
 85. Frequency Control Gains Aid Electronic Systems ..... March 81

## G

86. Government Communications Reaches Maturity in the 1990s ..... July 45  
 87. GSA Rides Herd on Federal Communications, Computers ..... July 41  
 88. Gulf Precision Weapons Offer Convention Preview ..... May 132  
 89. Gulf War Communications Quickly Fielded, Efficient ..... Aug. 44  
 90. Gulf War's Silent Warriors Bind U.S. Units Via Space ..... Aug. 81  
 91. Gulf's Electronic Marvels Set for Multiple Upgrades ..... Aug. 53

## H

92. Heliborne Surveillance Radar Finds Distant Moving Targets ..... Sept. 93  
 93. High Frequency Systems Rise in Army Priorities ..... Nov. 35  
 94. High Frequency Transistors Emerge in French Laboratory ..... Oct. 49  
 95. High Technology Electronics Program Set for South Korea ..... Oct. 58  
 96. Higher Trusted Security Pending for UNIX System ..... Jan. 61

## I

97. Industrial Revolution Erupts From Computer Design Aid ..... March 71  
 98. Information Provides Vital Resource to Management ..... July 17  
 99. Information Security Needs Improved Trusted Systems ..... Jan. 19  
 100. Integrated Approach Enhances Weather Support, An ..... Nov. 43  
 101. Integrated Cockpit System Combines Audio and Visual ..... Feb. 83  
 102. Integrated Data Networking Enhances Tactical Operations ..... Sept. 96  
 103. Integrated Space Systems Shape Future Battlefield ..... June 41  
 104. Intelligence Establishment Faces Cuts, Consolidation ..... June 76  
 105. Intelligence Role in Desert Storm, The ..... April 12  
 106. Intelligence Threat Changes Require Sharp U.S. Actions ..... Dec. 67  
 107. Iridium Offers Contact To Any Point on Earth ..... Feb. 95  
 108. Italy's Electronic Industry Covers All Military Facets ..... May 151  
 109. Italy's Electronics Industry Seeks Development Teaming ..... Sept. 61  
 110. Italy's Research Programs Focus on Consortia Efforts ..... Sept. 54

**J**

**111.** Launch Vehicles Dominate Space Exploration Scheme ..... *June 31*  
**112.** Life Testing Advances Prove High Reliability C<sup>3</sup>I Systems ..... *April 62*

# SATCOM POWER!

A radio that does what you want!

The new MST-20 Plus UHF SATCOM transceiver is a lightweight, user-friendly, narrowband tactical radio that gives you full performance, not compromises:

- Proven narrowband operation.
- 22 watts from a single battery—more than enough power for satellite uplink.
- Light weight—just 7.2 lbs.
- Easy to use, especially at night. A single knob changes frequencies quickly in the dark.
- Less maintenance—no internal battery required for presets.
- Uses standard accessories—i.e., battery box, X-mode cable.
- Upgradable design allows for DAMA and ICOM improvements.

See for yourself how the MST-20 Plus outperforms any field radio you've ever seen. Contact Eric Wright, Product Manager, today for the facts and a hands-on demonstration.
